# Work Experience

## Fresh Consulting

May 2018 - Present

### Software Development Lead: Front-end

- Building websites and applications leveraging modern React tools such as GatsbyJS and NextJS
- Building out standards and best practices for the development team
- Consult with clients and internal team to determine tech stack, timeline, and scope
- Advising on project staffing and architecture

## Fresh Consulting

January 2015- April 2018

### Front-end Developer

- Converting static mockups into custom-built dynamic websites using development tooling such as Webpack, Laravel, WordPress, and React
- Collaborating closely with design to ideate and determine feasibility within budget constraints
- Mentoring junior developers on career development and development best practices

## SightWorks

April 2013 - January 2015

### Front-end Developer

- Converted client approved site designs into dynamic websites leveraging SightWorks proprietary Content Management System
- Performed manually and automated quality assurance for marketing websites
- Evolved the SightWorks Platform with R&D
